Author Andrea “Fice” Sharp Releases Debut Novel, “Everything and Nothing”
“Everything and Nothing” is an Inspiring Story for Readers of All Ages

February 28, 2018 (Atlanta) - Life isn't always easy, especially when the odds are stacked against you. “Everything and Nothing” tells the story of Tenisha, a high school senior preparing for one of the biggest days of her young life - graduation. With all that Tenisha has to be excited about, the reality of her impoverished life gets in the way.

“Everything and Nothing” is the debut novel by Andrea “Fice” Sharp that stresses the importance of making smart decisions, having patience and most importantly, having faith that you will overcome whatever circumstances you face. This powerful story is based on true events and is a great tool for young audiences. After finishing the book readers will think twice about taking matters into their own hands due to their inability to be patient, even when things are moving slowly. Tenisha’s story is a compelling reminder that for every season in life, there is a purpose. Even in struggle and pain.

“Everything and Nothing” is published by The Writing Doctor, LLC and is available on the author’s website, www.andreaficesharp.com.

About the Author

Carthage, Mississippi native, Andrea “Fice” Sharp, is an author, entrepreneur, wife and mother currently residing in Atlanta, Georgia. She is a graduate of Mississippi Valley State University and Belhaven University.
